

Quantify is hiring - Research Analyst

Do you have a genuine interest in improving health care and want to work in an exciting international environment at a growing HEOR consultancy? Are you a team player with an analytical mindset and excellent communication skills? We are looking for a talented Research Analyst to join our team – Welcome with your application!

The company:

QUANTIFY Research, founded in 2011, is an experienced partner to the pharmaceutical industry and academic institutions. We provide high quality, professional consultancy services incorporating scientific expertise, strategic advice, and commercialization support where patients are always in focus. We have our roots in academia with broad competence in health economics, market access, and real-world evidence. QUANTIFY is a growing, innovative company.

The position:

As a Research Analyst you will be part of various projects within Health Economics and Outcomes Research (HEOR) as well as Market Access. Examples of day-to-day activities include independently conducting tasks such as literature reviews, data management and basic analysis as well as performing more advanced tasks in close collaboration with experienced team members, such as programming, statistical analyses and modeling. Your work tasks can also include preparation of and presenting e.g. scientific reports, slide decks, and study protocols.

Your qualifications:

- Master-level studies in economics, statistics, epidemiology, engineering, mathematical statistics, biostatistics or similar
- Strong analytical skills combined with a solution oriented "hands-on" mentality
- Driven and curious
- Previous work experience in the health care sector, experience in statistical programming or modelling is a merit
- Excellent communication skills (verbal and written) in English. Fluency in a Nordic language is a merit
- Ability to work effectively both independently and as part of a team

What we offer:

A workplace where you can develop your skills in a fast-paced, high-impact environment. There are many opportunities for personal development and involvement in exciting initiatives. You will be involved in helping patients access needed medicines in a variety of disease areas. We offer a good work life balance, competitive compensation and a friendly, supportive workplace. We are humbled to consistently receive top ratings from our employees.
