

**Why is Nordic
data world-
renowned?**

Patient-level linkage across many diverse data types

**Complete population
coverage of
>27 million
individuals...Not just
population-based!**

**Continuous patient
follow-up with
minimal attrition, only
due to emigration!**

20+ years of longitudinal patient follow up*

**Some data even go
back to the 1700's :)*

Global acceptance of Nordic data by key decision makers

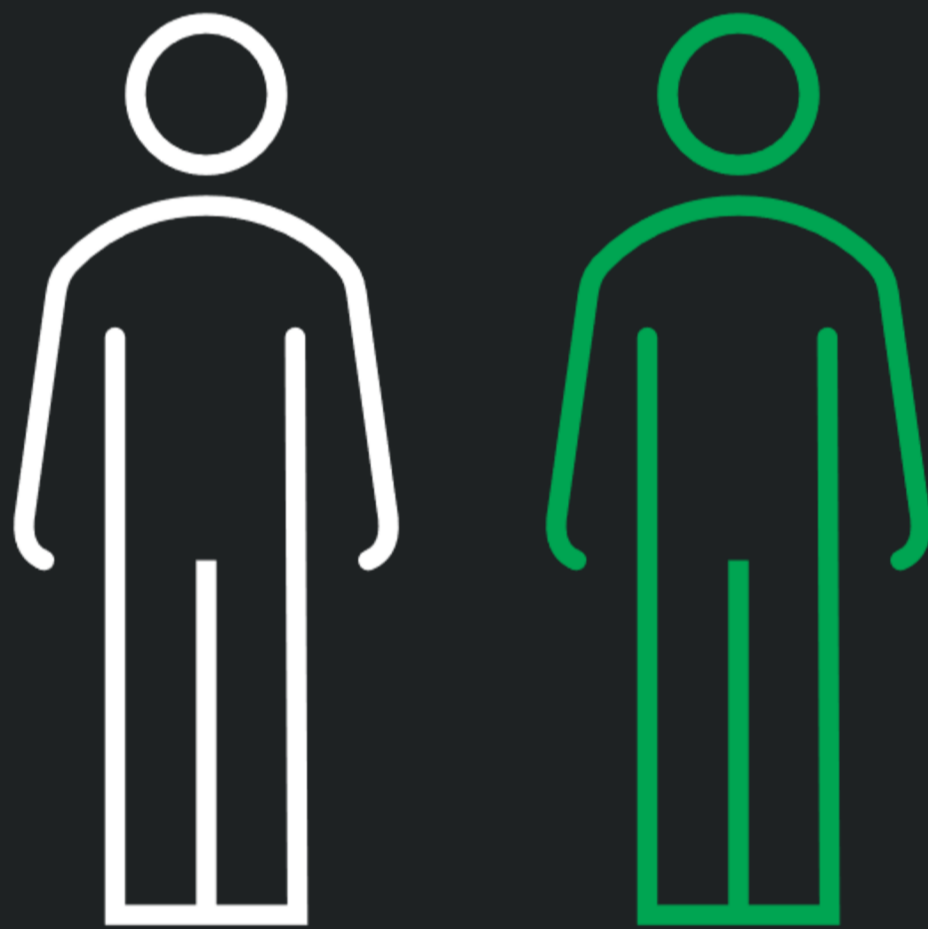

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

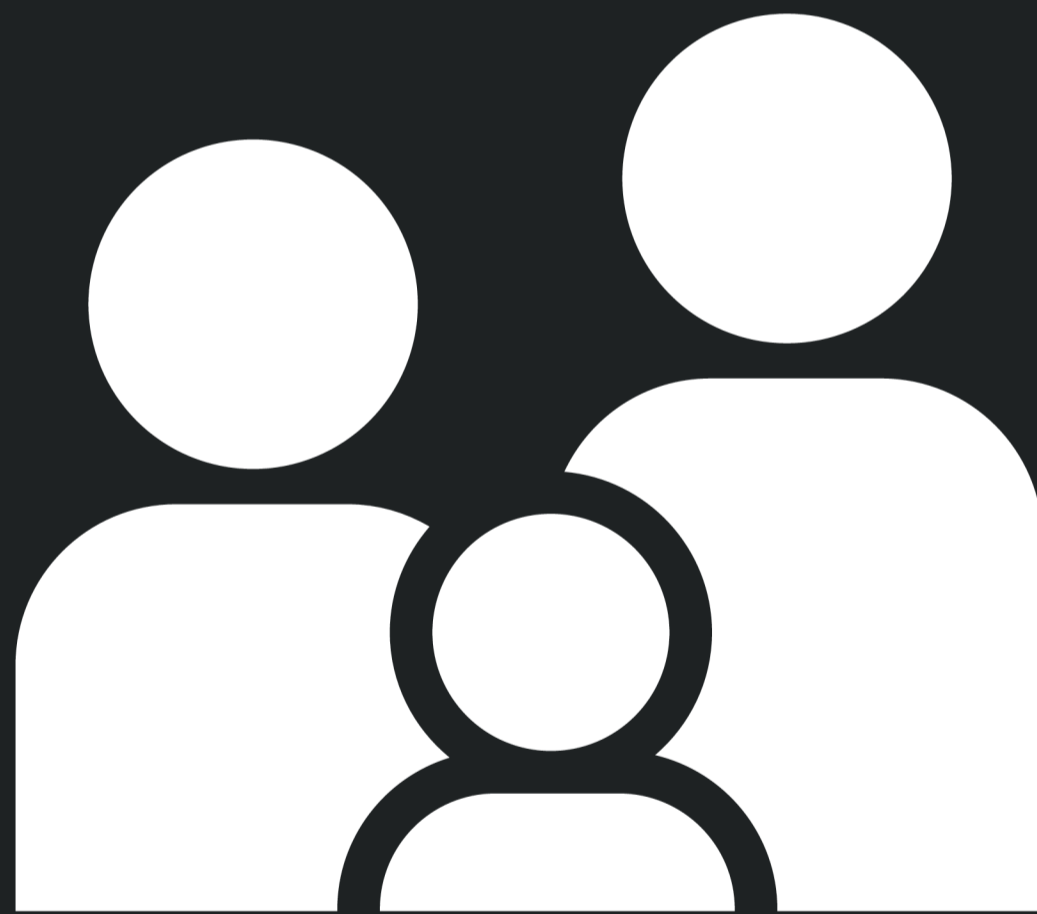

NICE National Institute for
Health and Care Excellence

Matched controls / available from the general population

**Linkage from
patients to family
members to
understand caregiver
burden & genetic risk**

**Quantify is the
leading provider of
Nordic data access
and analytics**
